Hiring help is a massive time-saver... *but only if you stay organized.*

Most creators struggle not because their freelancers are bad — but because their **systems are weak.**

- Tasks slip through the cracks.
- Deadlines get missed.
- Updates get forgotten.
- Communication becomes scattered.

This **Freelancer Management Dashboard** fixes all of that instantly.

It gives you a clean, simple, structured command center to manage every freelancer, every task, every timeline, and every deliverable — without stress, chaos, or micromanaging.

This is how real CEOs track their teams... and now your creators can too.

Why This Dashboard Is a Game-Changer

- Stop losing track of deadlines
- Prevent expensive mistakes
- Cut back-and-forth emails by 80%
- Keep all tasks, revisions, and notes in one place
- Know exactly how many hours you've used and what you owe
- Spot delays early — before they become disasters
- Feel organized and in control from Day 1

This is the difference between “outsourcing feels messy” and “outsourcing runs like a machine.”

What's Inside the Freelancer Management Dashboard

Each component is designed to keep your workflow clean, your freelancers aligned, and your projects moving smoothly.

SECTION 1 — Deliverables Tracker (The Command Center)

A clear master view of **every task assigned**, who's doing it, and where it stands.

Deliverables Tracker Table

Task / Deliverable	Assigned To	Start Date	Deadline	Status (To Do / In Progress / Needs Review / Done)	Hours Used	Notes

This eliminates confusion and keeps every task visible at a glance.

SECTION 2 — Revision & Feedback Log

Track changes, updates, and instructions — without losing the thread.

Revision Log Table

Task	Revision Needed	Requested On	Completed On	Notes / Feedback Provided

This helps creators avoid repeating instructions and ensures clear communication.

SECTION 3 — Hours Tracking & Time Budget Overview

Perfect for hourly freelancers (VAs, designers, editors, tech support).

Hours Tracking Table

Freelancer Name	Hourly Rate	Hours This Week	Hours This Month	Total Hours Used	Remaining Budget

This keeps costs under control — no surprises.

SECTION 4 — Payment Tracker (Know What You Owe)

Never miss a payment or double-pay again.

Payment Tracker Table

Freelancer	Invoice #	Amount Due	Due Date	Paid? (Y/N)	Notes

This gives creators a CFO-level view of their outsourcing costs.

SECTION 5 — Priority System for Smart Delegation

Filter tasks quickly by importance — no more guessing what needs attention.

Priority Key

- **High Priority (Red)** — Time-sensitive, growth-focused
- **Medium Priority (Yellow)** — Important but flexible
- **Low Priority (Green)** — Nice-to-have tasks

Priority Tracker Table

Task	Priority (H/M/L)	Reason for Priority	Deadline

This helps creators delegate strategically instead of dumping tasks randomly.

SECTION 6 — Communication & Comment Log

Track messages, decisions, clarifications, and important notes — all in one place.

Comment Log Table

Date	Freelancer	Message / Comment	Follow-Up Required?	Completed? (Y/N)

No more digging through emails or DMs to remember what someone said.

What Makes This Bonus So Valuable

Because outsourcing becomes EASY when creators have:

- Clear structure

- Clear deadlines
- Clear progress

This dashboard delivers all of that — in one beautifully organized place.

Creators feel empowered.

This is **hands-down** one of the most valuable bonuses you can include with an outsourcing module.
